Phone: 510-494-4513 510-494-4501

E-Mail: jhuber@fremont.gov etierney@fremont.gov

Public Comment

5. ADJOURNMENT

3. FISCAL YEAR 2010/11 PROPOSED OPERATING BUDGET

Contact Person:

Name: Catherine Chevalier Harriet Commons

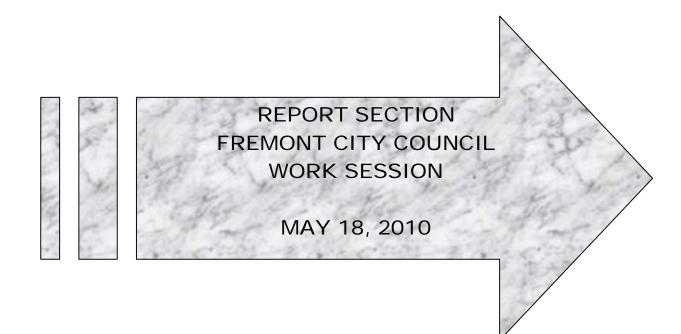

Title: Budget Manager Director
Dept.: Finance Finance
Phone: 510-494-4615 510-284-4010

E-Mail: cchevalier@fremont.gov hcommons@.fremont.gov

PURPOSE OF THE WORK SESSION: The purpose of the work session is to present the City Manager's FY 2010/11 Proposed Operating Budget to the City Council.

REQUESTED OUTCOME OF THE WORK SESSION: Provide information to the City Council and receive direction to staff from the City Council regarding recommended modifications to the FY 2010/11 Proposed Operating Budget that will enable the City Council to adopt the proposed budget on June 8, 2010.

ENCLOSURE: FY 2010/11 Proposed Operating Budget

4. CENTERVILLE FRAMEWORK PLAN

Contact Person:

Name: Josh Huber Elisa Tierney

Title: Redevelopment Project Manager Redevelopment Agency Director

Dept.: Redevelopment Agency Redevelopment Agency

Phone: 510-494-4513 510-494-4501

E-Mail: jhuber@fremont.gov etierney@fremont.gov

PURPOSE OF THE WORK SESSION:

This is the second of two work sessions focusing on a Framework Plan for Centerville, a guide for future development opportunities in and around Fremont Boulevard from Thornton Avenue to Central Avenue. The "Centerville Framework Plan" presents a potential vision for future development, parking strategies, multi-modal improvements to Fremont Boulevard, design guidelines, and a recommended work plan for implementation. The first work session was held on November 17, 2009 in which the City Council was presented background analysis and discussed various alternatives for Fremont Boulevard reconfiguration. Staff, in conjunction with consultants Field Paoli, has spent the last few months attempting to address the various interests expressed by Council Members. These interests include reconciling the desire to slow traffic on Fremont Boulevard to encourage the area as a downtown district (welcoming to pedestrians and bicyclists), with the recognition that Fremont Boulevard is a major arterial. It also has meant trying to identify revitalization and design measures, including attractive architectural elements and landscaping to create a desirable District, without restricting property owners. The purpose of tonight's work session is to:

- 1. Present the Framework Plan in its entirety, including a recommended Fremont Boulevard lane configuration; an assessment of long term development potential and proposed shared parking solutions in the District; suggested guidelines for future development, including streetscape improvements; and a recommended workplan for implementation; and
- 2. Receive comments from the City Council

POLICY ISSUES/ANALYSIS:

The Centerville Framework Plan builds on a history of community input beginning with the Centerville Specific Plan, subsequent community workshops focusing on the commercial core of Centerville and the Unified Site, and public workshops for the "Envision Fremont Boulevard" Study. In response to Council direction, staff and Field Paoli will present a strategy for future development in Centerville, which focuses on four categories of potential improvements to the district:

1. New Development Opportunities: The Framework Plan identifies current and future development opportunity sites in the commercial core of Centerville. Encouraging development at these opportunity sites can benefit both the property owners and the larger goal of revitalization of the Centerville district. The Framework Plan provides a comprehensive understanding of how individual projects could be compatible with each other (e.g., pedestrian connections from one area to another, parking that can be shared, etc.), with the City's long term goals for the district, and with the City of Fremont's 2010 General Plan.

- <u>2. Parking Strategy</u>: One limiting factor to development in Centerville is the potential future demand for vehicle parking. Several strategies are presented, including identification of possible future locations for shared parking and evaluation of the long-term need for structured parking to meet parking demands.
- 3. Multi-modal improvements through Centerville: The Framework Plan includes several options for the street configuration along the central Centerville stretch of Fremont Boulevard, primarily from Thornton Avenue to Central Avenue. Traffic calming measures and accommodations of several modes of travel are accomplished by narrowing or reducing the number of lanes, adding bike lanes, adding bulb-outs and medians, and creating parallel parking. These measures could help improve pedestrian access and safety by slowing traffic. The results of a traffic report that assesses vehicular traffic implications also will be presented.
- 4. Design Guidelines: The fourth component of the Framework Plan will address general design guidelines for new development in the district. These standards and guidelines will continue the focus on Centerville's historic identity and aesthetic character established in the Centerville Specific Plan by proposing the kinds of architectural design and detailing that would encourage an attractive, walkable, downtown area. Staff recommends that these guidelines be flexible, so that they guide but do not unduly restrict current and future development opportunities in Centerville.

The report also recommends a timeline and priorities for recommended implementation measures. The draft Framework Plan identifies short-term, medium-term, and ongoing implementation measures to undertake in the District. Immediate, high priority projects could include:

- Completion of entitlements on the Centerville Unified Site and start of construction
- Commencement of the decommissioning of State Route-84
- Creation of an Agency-sponsored capital project for the Fremont Boulevard lane reconfiguration and design development plans
- Determine the disposition of Fire Station 6
- Start development and implementation of parking management policies, including potential shared parking arrangements
- Continue efforts to facilitate the renovation of the Center Theatre.

REQUESTED OUTCOME OF THE WORK SESSION:

After hearing this evening's presentation by staff and consultants, staff is requesting that the City Council provide feedback on the four categories of proposed District improvements as outlined above in order to support future development opportunities in the commercial core of Centerville.

ENCLOSURE: Centerville Framework Plan
